NHCAC COMPLIANCE COMMUNICATION

Direct Access to the Compliance Officer

NHCAC recognizes that an open line of communication between the CCO and NHCAC workforce, is critical to the success of the Program. In addition to using the Corporate Compliance Hotline, members of the NHCAC community are strongly encouraged to report incidents of potential fraud or to seek clarification regarding legal or ethical concerns directly from the Corporate Compliance Committee, which a member can be directly contacted as follows:

NHCAC Compliance Committee

Committee Chair Rebecca Acosta, EVP - RAcosta@nhcac.org
Nishie Perez, MA, BSN RN - NishieP@nhcac.org
Bart Mongelli Esq. (General Counsel) - Bmongelli@decotiislaw.com

Employees who, in good faith, report possible compliance violations will not be subjected to retaliation or harassment as a result of their reports. Retribution related to reporting of compliance concerns is prohibited and anyone who engages in such prohibited activity will be subject to disciplinary action. Concerns about possible retaliation or harassment should be reported to the CCO or his designee. All such communications will be kept as confidential as possible, but there may be times when the reporting individual's identity may become known or may have to be revealed if governmental authorities become involved, in spite of the best efforts of NHCAC.

When appropriate, the CCO will seek advice directly from legal counsel to assist in the investigation of fraud and abuse reports concerning members of the NHCAC workforce who may have participated in illegal conduct.

Compliance Hot Line

A key element of the NHCAC Compliance Program is the Corporate Compliance Hotline that can be accessed by dialing (551) 888-0609. The Hotline is a confidential resource that can be used anonymously to allow all members of the NHCAC workforce to voice concerns over any situation that may conflict with NHCAC' commitment to excellence or to report misconduct that could give rise to legal liability if not corrected.

A log is maintained of all Hotline calls, the results of investigations and continued monitoring, if applicable. Reports of calls will be reviewed annually by the CCO to identify any significant trends or patterns.

Compliance Officer- Alex J. Keoskey

New Employee Policy

For all new employees, NHCAC will conduct a reference check, as part of the hiring process. All NHCAC job applications specifically require the applicant to disclose any criminal conviction or adverse action relating to professional licensure, certifications, privileges or provider status as outlined by New Jersey law.

Communications with Government Agencies

NHCAC and member organizations shall document and retain records of all requests for information regarding payment policy from any government agencies regulatory bodies or third-party payors and all written or oral responses received. Such records are critical if NHCAC intends to rely on such responses to guide them in future decisions, actions or claim reimbursement requests or appeals, while further underscoring NHCAC commitment to compliance with the law.

Record Retention

NHCAC is committed to complying with the record and documentation requirements under federal or state law and to the maintenance and retention of records and documentation necessary to confirm the effectiveness of NHCAC' Compliance Program. Such documentation includes but is not limited to a Compliance Hotline log, minutes of Compliance Committee meetings, educational presentation logs, handouts and attendance sheets and documentation of auditing and monitoring efforts.

INVESTIGATIONS

The CCO has the authority with the Compliance Committee to investigate all potential compliance issues and to direct others to do so and shall report the results to the President and CEO and The Executive Committee of the Board of Directors. The CCO or his designee will:

- Promptly initiate an investigation of a potential compliance issue to make a determination as to whether a violation has occurred. The CCO will either personally conduct the investigation or refer the complaint to a more appropriate area within NHCAC or outside, such as internal or outside legal counsel, auditors or health care consultants with needed expertise. The CCO may request assistance in the investigation from the person or persons who filed a complaint, other personnel or external sources, as appropriate;
- Request legal counsel to participate in the investigation and provide legal advice in any such matter, as appropriate. In any investigation involving legal counsel, the fact gathering is to be conducted under counsel's direction and control. All members of NHCAC are obligated to cooperate with counsel.
- Prepare a report of each investigation in conjunction with legal counsel which will include documentation of the issue and, as appropriate, a description of the investigative process, copies of interview notes and key documents, a log of the witnesses interviewed and the documents reviewed, the results of the investigation, any disciplinary action and the corrective action implemented to prevent recurrence. Reports of each investigation and the status of the corrective action will be presented to the President and CEO and Executive Committee of NHCAC' Board of Directors on a quarterly basis, or as deemed necessary.
- Work with relevant areas within NHCAC to ensure return of discovered overpayments to the relevant government programs, utilizing all applicable self-disclosure protocols.

MONITORING

As outlined in Section V., one of the principal responsibilities of the CCO is to oversee and monitor the implementation of the NHCAC Compliance Program with the NHCAC Compliance Committee. The CCO and/ or his designee works with Senior Administration and Directors to develop a Compliance Work Plan to track the effectiveness of the Compliance Program. The Compliance Work Plan will include an annual identification of areas which require monitoring. Progress reports of the ongoing monitoring activities, including identification of suspected noncompliance, will be maintained by the CCO and/or his designee and shared annually with the President and CEO and Executive Committee of the Board of Directors.

Monitoring techniques that will be used by the Corporate Compliance Department include, but are not limited to the following:

- Compliance audits focused on those areas within NHCAC that have potential exposure to government enforcement actions as identified in

(i) Special Fraud Alerts issued by the Office of Inspector General (OIG),
(ii) OIG annual Work plan, (iii) Medicare fiscal intermediary or carrier
reviews and (iv) law enforcement initiatives.

- Benchmarking which provide operational snapshots from a compliance perspective that identify the need for further assessment, study or investigation.
- Periodic reviews in the areas of Program dissemination, communication of NHCAC' compliance standards and Code of Conduct, the Corporate Compliance Hot Line and adequacy of compliance training and education to ensure that the Program's compliance elements have been satisfied. The review process will be conducted through on-site interviews and surveys of key management in operations, medical records, coding, billing and patient care.
- Subsequent reviews to ensure that corrective actions have been effectively implemented.

CORRECTIVE ACTION PLANS

When a compliance issue that has been identified requires remedial action, the appropriate NHCAC department or administrative personnel responsible for the activity should develop a corrective action plan which specifies the tasks to be completed, completion dates and responsible parties. In developing such a plan, the responsible personnel will obtain advice and guidance from the CCO, NHCAC Compliance Committee, legal counsel and other appropriate personnel, as necessary. Each corrective action plan must be approved by the CCO or his designee prior to implementation. The CCO has the obligation to report directly to the President and CEO and Executive Committee of NHCAC' Board of Directors on (i) all compliance issues noted for which corrective actions have not been implemented; (ii) corrective action plans that have not met his/her approval from an adequacy or timing standpoint; or (iii) corrective action plans that are not subsequently implemented in accordance with the approved plan in terms of substance or timing.

A corrective action plan should ensure that the specific issue is addressed and that similar problems will not occur in other areas or departments, to the extent possible. Corrective action plans may require that compliance issues be handled in a designated way, that relevant training takes place, that restrictions be imposed on particular employees, or that the matter be disclosed externally to the appropriate authorities pursuant to applicable state or federal law. Sanctions or discipline, in accordance with the standard disciplinary policies and procedures of NHCAC may also be recommended. If it appears that certain individuals have exhibited a propensity to engage in practices that raise compliance or competence concerns, the corrective action plan should identify actions that will be taken to prevent such individuals from exercising substantial discretion in that area.

SANCTIONS

All members of the NHCAC workforce are responsible for complying with NHCAC' Corporate Compliance Program, Code of Conduct and related policies and procedures. Corrective action for noncompliance will be initiated by the appropriate management personnel, who must notify Human Resources in accordance with the standard disciplinary policies and procedures of NHCAC. Enforcement will be administered by the parties identified by the CCO in consultation with the immediate supervisor and, if appropriate, Human Resources. Disciplinary actions will be determined on a case-by-case basis and will be administered appropriately, equitably and consistently, given the underlying circumstances and considering the degree of underlying acts or omissions, including whether or not such conduct amounts to inadvertent mistake, negligence, recklessness or intentional violations.

Physicians who violate the Program will be disciplined in accordance with the peer review procedures established in the medical staff bylaws at the member organization level.

However, the Code of Conduct and the Compliance Plan do not set forth all of the reasons or situation in which employees may be disciplined.

Reporting Mechanisms

One of the key ingredients of an effective compliance program is the development of a system which employees can use to report questionable behavior without fear of retaliation. We have established **(551) 888-0609** as the Corporate Compliance Hotline for this purpose. The Hotline will put you in touch with our Compliance Officer who reports directly to the President. Some examples of behavior that should be reported include the following:

- A serious breach of patient or employee confidentiality by a co-worker;
- Accepting bribes or kickbacks from a vendor;
- Unethical or illegal activities by any co-worker;
- Violations of any state or federal statute, including, but not limited to, HIPAA; EMTALA, OSHA or any state or federal regulations or laws;
- Theft or pilfering of any items owned or controlled by NHCAC by employees or vendors;
- Significant impairment of a NHCAC employee due to the influence of drugs or alcohol abuse;
- Any other violations of state or federal law or regulations relating to health care.

Employees are expected to bring these types of issues or concerns to their immediate supervisor. The supervisor should then evaluate the situation and address it. If an employee feels their concerns are not properly resolved or if the problem involves their supervisor, employees must contact the next level of management or the Corporate Compliance Hotline.

When calling the Hotline, please be sure to provide as much information as possible to enable the Compliance Officer to research the issue. They will begin a detailed investigation and provide the results of that directly to the President. Calls can be made anonymously from an outside phone. However if you want a response to your inquiry, you will need to provide your name and department. All Hotline calls will be kept confidential to the extent possible and still permit investigation.
